

# SMSC at Morningside

At Morningside, we provide thoughtful and wide-ranging opportunities for pupils' spiritual, moral, social and cultural development and their physical well-being which enables our pupils to thrive. Pupils' spiritual, moral, social and cultural development and, within this, the promotion of fundamental British values, are at the heart of the school's work. We believe this equips them to be thoughtful, caring and active citizens in school and in wider society. We consistently promote fundamental British values and pupils' spiritual, moral, social and cultural development.
